Box 770001, Cincinnati, OH 45277-0003.

Income Summary A summary of income by tax status for the statement and year-to-date periods. Except for interest income earned on, or distributed by, tax-exempt securities, Fidelity reports dividends and capital gains distributed by securities held in taxable accounts as taxable income. A portion of income reported as tax-exempt income may be subject to alternatives minimum taxes and/or state and local taxes. Fidelity reports earnings on investments in Traditional IRAs, Rollover IRAs, SEP-IRAs, and Keoghs as tax-deferred income. Earnings on investments within Roth IRAs are reported as tax-exempt income, since distributions may be tax-exempt after meeting the five-year aging requirement and certain other conditions.

Change in Investment Value The appreciation or depreciation of your holdings due to price changes, plus any distributions and income earned during the statement period, less any transaction costs, sales charges, or fees.

Cost Basis, Gain/Loss, and Holding Period Information Fidelity provided estimated cost basis, realized gain and loss, and holding period information may not reflect all adjustments necessary for tax reporting purposes. Taxpayers should verify such information against their own records when calculating reportable gain or loss resulting from a sale, redemption, or exchange. Fidelity does not report such information to the IRS or other taxing authorities and is not responsible for the accuracy of such information. Taxpayers may be required to report to federal, state, and other taxing authorities. Fidelity makes no warranties with respect to, and specifically disclaims any liability arising out of, or any tax position taken in reliance upon, such information. Unless otherwise specified, Fidelity determines cost basis at the time of sale based on the first-in, first-out (FIFO) method (for securities other than open-end mutual funds) or the average cost-single category (ACSC) method (for open-end mutual funds).

Cost Fidelity also provides purchase cost information for securities held within retirement accounts. Such cost information may be adjusted for certain transactions and does not reflect

Additional Information About Your Brokerage Account, If Applicable

Customer Free Credit Balance You are entitled to your free credit balance in your brokerage account at any time, subject to any open commitments in any of your cash accounts. Free credit balances are not segregated and may be used in NFS's business in accordance with federal securities law. There is no free credit balance in a retirement account.

Assets Separate from Your Brokerage Account Only securities holdings in the margin portion of your brokerage account contribute toward margin and maintenance requirements. Assets maintained with Fidelity Investments Life Insurance Company and mutual fund assets held outside of your brokerage account (that may be reported on your statement) are not carried by NFS and are not covered by SIPC. These assets do not contribute toward your margin and maintenance requirements. Assets held by Portfolio Advisory Services (PAS) are carried by NFS and are covered by SIPC but do not contribute toward your margin and maintenance requirements.

Short Account Balances Fidelity maintains all securities sold short in a segregated short account. These securities are marked-to-market and Fidelity transfers any increase or decrease from the short sale price to your margin account on a weekly basis. Fidelity represents your short account balance as the balance of your short account as of the last weekly mark-to-market, not as of the statement end date.

Information About Your Option Transactions Assignments of American and European-style options are allocated among customer short positions pursuant to a random allocation procedure, a description of which is available upon request. Short positions in American-style options are liable for assignment at any time. The writer of a European-style option is subject to exercise assignment only during the exercise period. Call a Fidelity representative for more information.

Equity Dividend Reinvestment Shares credited to your account resulted from transactions effected as agent by either FBS for your account, or the Depository Trust Company (DTC) through the dividend reinvestment program. For FBS-effected transactions, Fidelity will furnish, upon written request, the time of the transactions, the exchange upon which these transactions occurred, and the name of the person from whom the security was purchased. FBS's affiliate may have acted as market maker in effecting trades in over-the-counter securities.

Price Information Fidelity calculates prices for Fidelity products. All other prices shown on your statement have been obtained from independent quotation vendors, whose appraisals are based either on closing prices, bid/ask quotation or a matrix based on interest rates for similar securities; and for certain securities prices may not be current as of the statement date. We cannot guarantee the accuracy of these prices as they appear on your statement. If we are unable to obtain a price, "unavailable" will appear instead of a dollar value for that security.

reinvestments of dividends or capital gains. Fidelity also reports transaction profit or loss information when securities are sold within a retirement account. Transaction profit or loss is calculated by subtracting purchase cost from sales proceeds. If you purchased shares at different times or prices, Fidelity calculates profit or loss is calculated based on the first-in, first-out method.

Wash Sales If a wash sale occurs, the loss from the transaction is disallowed for federal income tax reporting purposes but may be added to the cost basis of the newly-purchased shares. Fidelity adjusts the cost basis of newly-purchased shares when a wash sale occurs within an account as the result of an identical security purchase. Fidelity does not report disallowed losses or adjust cost basis related to wash sales triggered by sales and purchases of the same security within different accounts or by sales and purchases of "substantially identical" securities within the same or different accounts.

We deliver statements at least four times during the calendar year for any account with a balance. Please notify us of any discrepancies within 10 days of receipt of the statement and advise us promptly of any material changes in your investment objectives or financial situation related to your brokerage account(s). If you request a reprint of your statement, the disclosure information provided with your reprint may or may not be the same as the disclosure information provided with your original statement.

Information About Mutual Funds and Their Performance Please carefully consider the fund's or insurance product's investment objectives, risks, charges, and expenses before investing. For this and other information, call or write to Fidelity or visit Fidelity.com for a free prospectus. Read it carefully before you invest.

The performance data featured represents past performance, which is no guarantee of future results. Investment return and principal value of an investment will fluctuate; therefore, you may have a gain or loss when you sell your shares. Current performance may be higher or lower than the performance data quoted. Please visit Fidelity.com for performance or call Fidelity for most recent month-end and performance figures.

Each fund reserves the right to terminate or modify its exchange privilege in the future. In addition to sales loads and 12b-1 fees as described in the prospectus, Fidelity Brokerage Services LLC (FBS) or NFS may receive compensation of up to 0.35% of the average daily net assets of certain mutual funds in connection with your purchase of those mutual fund shares and/or the on-going maintenance of your brokerage account with respect to those shares. The compensation is paid by the mutual fund and/or its affiliate. Additional information about the source and amount of the compensation will be furnished to you upon written request.

Fidelity carries certificates of deposit (CDs) that have a maturity of one year or less from date of issue at their face value. CDs with a maturity date of more than one year from date of issue will be shown at market value based upon a matrix or model pricing method that may not represent the actual price if sold prior to maturity. The sale or redemption of any fixed income security prior to maturity may result in a substantial gain or loss, and a penalty may apply to the early withdrawal of a CD. While you may sell CDs in the secondary market subject to market conditions, the market is generally illiquid. You should always request a current valuation for your securities prior to making a financial decision or placing an order. Direct participation program securities (e.g., partnerships, limited liability companies and real estate investment trusts which are not listed on any exchange) are generally illiquid and their values will be different than the purchase price. Unless otherwise indicated, the values shown herein for such securities have been provided by the management of each program and represent management's estimate of the investor's interest in the net assets of the program. Therefore, the estimated values shown herein may not necessarily be realized upon liquidation. If an estimated value is not provided, accurate valuation information is not available.
